Technical Data

There's still plenty to explore

Every road you take in your life leads to new discoveries. Explore the next one with the new and improved Škoda Octavia. Enjoy the new tech that will enable you to work and live smarter.

The new Octavia is about more than just a smarter look. The new materials used in the interior are more pleasant to the touch and easier on the environment. Improvements such as Ergo Seats bring a new level of comfort even on the longest drives.

On the technological side of things, the interior is dominated by a pair of new and larger screens – 10" Virtual Cockpit and 13" Škoda Infotainment. These give you a perfect overview of the new features the Octavia has to offer, including the latest generation of parking assists.

The engine line-up still offers the tried and tested TSI engines. On top of the line is, as usual, the powerful RS version that combines practicality with thrilling dynamics.

That's the smart way of working and living. That's what we call Škoda.

Classic with a sharp edge

A crystalline signature on a timeless shape. The new Octavia retains all the sleekness, space and practicality it is known for and adds a crisper style style.

Spacious in style

The distinctive light signature of the LED headlights and wide, imposing grille give the updated Octavia a new, characteristic look. At the same time, it retains its classic shape and legendary practicality, including the largest luggage space in class. Once again, the Octavia shows that you can actually have it all - great looks, effective aerodynamics and lots of practicality.

LED Matrix beam headlights

Crystal clear view with a Crystallinium style. LED Matrix beam headlights provide great visibility even with other cars around and now, with 36 LED segments instead of 24, they offer even finer precision. The coloured crystalline element accentuates the sharp contours of the headlights, adding a touch of elegance and visual appeal.

LED rear lights with animated indicators

With crystalline elements inside, the LED rear lights with animated indicators create an unmistakable and easy-to-recognize visual signature. This look is underscored by the use of full LED technology and the dynamic turn signals, which illuminate sequentially in the direction you are turning.

Virtual Pedal

Full hands are not a problem anymore. With Virtual Pedal, just a swing of the foot under the bumper is enough to open the door. Available in combination with KESSY and electric 5th door.

Walk-away KESSY

Never forget to lock your car ever again. With the new walkaway function, the Keyless Entry Start and Exit System will not only lock and unlock your car with a touch of the front door handles, but will also automatically lock the doors when you walk away with the key.

Enhanced space

Still as spacious and now also even more modern and luxurious. New, larger screens open up window into the digital world. The finest sustainably-made are forward looking yet firmly rooted in the best traditions of Škoda. The ambient lighting completes the unique atmosphere of the interior and highlights a number of smart details.

All the information, as you need it.

See what you need when you need it. Using the 10" Virtual Cockpit and 13" Škoda Infotainment, the new Octavia keeps you in the picture, with information ranked by importance.

Infotainment screen

The world at your fingertips. With a 13" touchscreen, the new Škoda Infotainment offers an even clearer way of displaying all the information and entertainment features. The new generation of the MIB system is now smoother and faster in operation.

Virtual Cockpit

All the key information right in front of you. The 10" Virtual Cockpit offers driving data in easy-to-comprehend, customisable view.

**Take the online world
with you**

Always connected

The infotainment screen is not just larger than ever before. It also offers access to even more features, like the set-up for improved ambient lighting, in a brand-new, smooth virtual environment. Explore the world in a digital way.

Smart tricks for a better day

It's the small things that make a difference. Details that help you focus on what's really important. A way to sleep comfortably on the road and arrive refreshed. Places to put your things so you have them always on hand. Ways to live smarter.

Sleep package

To make sleeping on the road comfortable, Octavia can be fitted with Sleep Package. It includes headrests with adjustable sides so that the passengers on rear outboard seats can relax during long journeys. The package includes a snug blanket.

Storage compartment

Even rear passengers can now have everything they need easily on hand. The removable storage compartment fits over the centre tunnel and offers space for smaller items, phones or drinks.

Extra large space for extra large life

Lots of room is just the beginning. To allow you to make the most of it, we filled it with practical features and smart tricks. Everything has enough space here, and everything will also stay in its place.

Luggage room

Once again, the best-in-class luggage compartment volume of 600 litres which can be expanded up to 1,555 litres with the rear seats folded. The luggage compartment now also with even more smart solutions like net system, practical hooks or cargo elements.

Even safety can multitask

Airbags

The new Octavia offers up to seven airbags:

- Driver and front passenger airbags
- Centre airbag
- Driver and passenger side airbags
- Curtain airbags

Rear cross traffic alert

The rear cross traffic alert system helps drivers safely reverse out of parking spaces or driveways by monitoring traffic approaching from the sides using nanoradars within the rear bumper. It can detect vehicles, cyclists or pedestrians, providing visual and auditory warnings to the driver.

Exit Warning System

To make exiting the parallel parked vehicle safer and easier, the Exit Warning System monitors the area behind the car using the two nanoradars under the rear bumper cover and warns driver or passenger that a vehicle, a pedestrian or a cyclist is approaching using visual signals.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Lane Assist

Using a camera mounted on the windshield, Lane Assist detects lane markings on the road. If the system senses the vehicle unintentionally drifting out of its lane without signaling, it gently steers the car back into its lane.

Side Assist

The Side Assist system works through nano radar sensors in the rear apron which warns of dangerous lane changes and detects vehicles approaching from up to 90 meters behind.

Front Assist

The Front Assist is a collision-alert safety system. Faced with unavoidable collision, it applies the brakes to minimise the consequences. It also performs an emergency stop if a pedestrian or cyclist attempts to cross the path of the car.

Manoeuvre assist

The park distance control warns of the potential risk of colliding with obstacles during parking by drawing data from the sensors, the driving parameters, and the steering wheel angle. To avoid those parking situations where you don't brake in time in response to the distance alerts, the Octavia incorporates manoeuvre assist, a feature that stops the car to avoid collision.

Studio interior

Grey/Black fabric upholstery
Narbe ruby pad
Silver squares haptic dashboard décor
Piano Black door décor

Essence

Even as standard, the Essence version is fitted with a rich list of equipment. This includes, for example: 2-zone Climatronic, 10" Digital display and 10" Infotainment, leather multifunction steering wheel and cruise control. The Essence trim is available with the Studio interior design selection.

Studio

Grey and black fabric seat upholstery with Silver squares haptic dashboard décor, together with Narbe Ruby dashboard pad, and Piano Black door décor create a feeling of timeless elegance.

Loft interior

Grey/Black fabric upholstery
Narbe ruby pad
Silver squares haptic dashboard décor
Piano Black door décor

Selection

Standard equipment for the Selection version includes for example 2-zone Climatronic and 10" digital instrument panel and 10" Škoda Infotainment, leather multifunction steering wheel, four USB-C ports, wireless charging and cruise control. The Selection trim is available with a choice of five interior design selections.

Loft

With a combination of black/grey fabric seat upholstery and Silver Squares haptic dashboard décor, Narbe Ruby pad and Piano Black door décor create a stylish, elegant look of the cabin.

Sportline

Sporty look for any day

It doesn't matter where you go, if you can enjoy it in style. The new Octavia Sportline combines a more dynamic-looking exterior with sharper driving dynamics and more tech. Make the most of every road you take!

Dynamic looks, dynamic drive

Enjoy the drive and look the part. The Octavia Sportline catches the attention with its front aerodynamic spoiler and rear diffuser, gloss black grille and trim, as well as exclusive alloy wheels and LED headlights.

The drive is better, too. It comes equipped with the Performance Package, which includes progressive steering and lowered sports suspension.

Something just for you

This is just about you and your passengers. Settle yourself in the fabric and artificial leather sports seat, grab the perforated leather multifunction steering wheel and place your feet on the aluminium sports pedals. The Carbon look dashboard and piano black door décor, leatherette dashboard pad and the cool black headliner complete the driving-focused atmosphere. The 10" Virtual cockpit will serve you all the necessary information, while the KESSY Advanced will make entering your driving world easy. This is all about the drive.

Sportline

Front Sport seats with upholstery in a combination of grey recycled fabric and leatherette with Carbon dashboard décor and black leatherette dashboard pad with grey stitching along with Piano black door décor and black headliner are a combination of sport and sustainability.

RS

Rally genes for every day

Created for those who demand the best possible drive. Everything we learned in decades of motorsport, infused into an everyday family car.

Dynamic drive

With its 2.0 TSI / 195 kW engine, this is the most powerful Octavia, ever. With progressive steering, it dives into the corners lightning quick, while the sports suspension keeps it planted to the road. The sports exhaust is here for a proper soundtrack. But the looks matter, too. The LED Matrix headlights, the aerodynamic front bumper and wide, black grille with unique RS badge create a face to remember. In the rear, the aerodynamic bumper with black diff user is complemented by a black spoiler. The 18" wheels in exclusive designs are standard.

RS

This is where serious driving happens. The RS interior was designed around the driver and driving, so you can make the most of the power and driving dynamics of the Octavia RS. The three-spoke, perforated leather, multifunction RS steering wheel, the RS sports seats in fabric, the cool aluminium sports pedals. The neoprene dashboard pad and black headliner to complete the focused atmosphere. And, of course, the long list of equipment to make you comfortable whether you drive fast or slow.
