Your new space to explore

Your car should be your family's second home on the road. A partner to explore the world. A tool to make your life smarter. Škoda Kodiaq does all that. And more.

In the new Kodiaq, the bigger size means more space for passengers in all three rows. New technologies of infotainment, smarter controls, and comfort features like Ergo seats with improved massage function will make your time aboard more enjoyable.

The new dual-valve DCC Plus adaptive suspension offers an even better combination of driving dynamics and comfort.

That's the smart way of family life. That's what we call Škoda.

Bigger. Bolder. Better.

The longer length not only provides more space for you and your family. It also allows for a sleeker, more elegant profile, underscored by details like the gloss black trim around the upper part of the window and D-pillar in Unique Dark Chrome finish. Proof that even practicality can attract admiring looks everywhere you go. Your family's stylish partner for exploring the world.

LED Matrix beam headlights

Crystal clear view with a Crystallinium style. Top LED Matrix system provides great visibility even with other cars around. The coloured crystalline element accentuates the sharp contours of the headlights, adding a touch of elegance and visual appeal.

Front grille with horizontal light strip

To grab even more attention on the road, the new wider and bolder grille has its vertical slats illuminated by LEDs. This makes the new Kodiaq an unmistakable sight when driving at night.

Virtual Pedal

Full hands are not a problem anymore. With Virtual Pedal, just a swing of the foot under the bumper is enough to open the door. Available in combination with KESSY and electric 5th door.

KESSY Advanced

Never forget to lock your car ever again. KESSY is not only able to lock and unlock the car just by you touching the front handle. In its latest iteration, it also uses the 'Open on Approach and Walk Away Locking functions', where the car automatically unlocks when approached and locks again when you walk away from it.

Space for the digital age

Digital yet tactile. Stylish yet sustainable. With the new interior concept, the Kodiaq makes the best use of both the latest technologies and tried and tested tactile controls. The new materials are attractive to look at and pleasant to touch, yet made of environmentally-friendly materials. The combination of large touchscreens, Škoda Smart Dials, and column mounted shifter allows for a clean centre console with ample storage. The leather is manufactured using a discarded coffee husks as a natural tanning powder, while the fabric is made from recycled materials. This allows you to enjoy comfort and pleasant atmosphere while being friendly to the environment. The ambient lighting can be set up to adapt the interior to your current mood. Every single detail contributes to the unique atmosphere on board.

Head-up Display and Virtual Cockpit

All the key information right in front of you. The standard 10" Virtual Cockpit offers driving data in easy-to-comprehend, customisable view. In addition, the Head-up Display can be ordered, showing the most crucial information and navigation guidance right on the windshield.

Information. Communication. Entertainment.

Be connected to the world around. The new Kodiaq creates a digital environment around you, carefully curated so that what's most important is right in front of you, while the large screen displays items that require detail.

Infotainment screen

The world at your fingertips. With the 13" touchscreen, the new Škoda Infotainment offers an even clearer way of displaying all the information and entertainment features that will make travelling a truly enjoyable experience.

Display cleaner

Screens always clean and shiny. Easily remove smudges and fingerprints from the infotainment display or any other shiny surface. Display cleaner is neatly stored in the centre console, so it's always easily on hand any time you need it.

Never lose connection

Everything is just a touch away in today's digital world. Use the infotainment screen to set up the car or find your way to your destination.

Always connected

The infotainment screen is not just larger than ever before. It also offers access to even more features, like the set-up for improved ambient lighting, in a brand-new, smooth virtual environment. Explore the world in a digital way.

Always charged

A first for Škoda: the new Kodiaq offers wireless charging for two smartphones with ventilation to prevent your devices from overheating and charging power up to 15 W per phone.

Space for seven

Even more space for your family or friends. The new larger interior offers comfortable seating in three rows with more room than ever before. The passengers in the third row get an extra 15 millimetres of headroom compared to the previous model.

Even safety can multitask

Airbags

The new Kodiah offers nine airbags:

Exit Warning System

To make exiting the parallely parked vehicle safer and easier, the Exit Warning System monitors the area behind the car using the two nanoradars under the rear bumper cover and warns driver or passenger that a vehicle, a pedestrian or a cyclist is approaching using visual signals.

This is an illustrative image depicting an assistance system feature and does not represent any specific Škoda model.

Adaptive Cruise Control - Available from MY26

The Adaptive Cruise Control (ACC) maintains a safe distance from the vehicle ahead at a selected speed, controlling the engine and actuating the brakes to automatically accelerate or decelerate as needed. The system combines the cruise control system with radar-based distance controller.

Lane Assist

Using a camera mounted on the windshield, Lane Assist detects lane markings on the road. If the system senses the vehicle unintentionally drifting out of its lane without signaling, it gently steers the car back into its lane.

Side Assist

The Side Assist system works through nano radar sensors in the rear apron which warns of dangerous lane changes and detects vehicles approaching from up to 90 meters behind.

Front Assist

In addition to vehicles and pedestrians, the Front Assist responds to cyclists crossing the vehicle's path. At speeds between 5 km/h to 85 km/h, the system will trigger a cascade of warnings or apply the brakes to perform an emergency stop.

Lighting

High-performance headlights with high-tech features are essential for safe driving because they allow the driver to see well in the dark. They also help other road users to determine accurately where the car is, whatever the conditions.

The new Škoda Kodiaq’s lights stay true to tradition by combining the very latest technology with a modern design.

The top headlights featuring LED Matrix technology are in the “four-eyed” arrangement that is typical of Škoda SUVs today. The **Flying Arrow** shape of the light signature alludes to the winged arrow famous from the brand’s logo. A new design element called Crystallinium representing the pinnacle of Škoda’s current design language, can be seen detailed inside the headlight.

LED Matrix beam headlights

- Standard on Selection Plus and Sportline
- together, the upper Bi-LED module and the lower Matrix module contain 36 individual light segments, with a static cornering light positioned next to the Bi-LED module
- double-row Matrix units allow for automatic shading and adaptation to multiple objects
- they reduce the glare caused by reflective objects – typically road signs
- all lighting functions are provided by LEDs
- luminous flux of dimmed lights: 950 lm (lumens)
- full-beam illuminance: 185 lx (lux)
- Coming/Leaving Home animated function with welcome effect

Loft interior

Recycled Yocto melange fabric upholstery,
pad and door insert
Deep black décor
Leatherette door and middle armrest

Design Selections for the interior

With Design Selections, you can create a space that suits your style and personality. Each Design Selection tastefully pairs upholstery materials and colours with dashboard décors, specific details, and even comfort features. Select the design that suits you best!

Design Selection Loft

Grey seats upholstered in recycled fabric are the prominent feature of this interior. The overall look is underscored by cross-stitching on the recycled Yocto melange fabric dash pad and Deep black décor.

Lounge interior

Suedia dash pad, armrests and door inserts
 Dark Cork Grey décor
 Suedia, leatherette and recycled wool fabric seat upholstery

Design Selection Lounge

Enjoy the interior that not only feels natural, but is also nature-friendly. The recycled wool, used on the seat upholstery, has been tested and approved by The Woolmark Company in accordance with its quality certification process. A wool certificate label is integrated into the seat and visibly symbolises the sustainable approach. The overall luxurious

feel of the interior is further enhanced with combination of Suedia and leatherette on the seats and the Suedia accents that compliment the Dark Cork Grey décor on the dashboard and door inserts. The contrasting yellow stitching around the interior adds the unmistakable visual style.

Suite cognac interior

Cognac leatherette pad, armrests and door inserts
Swan drawing Grey décor
Cognac leather/leatherette upholstery

Design Selection Suite cognac

Cognac leather tanned using discarded coffee beans dominates the stylish interior. The overall look is highlighted by cognac cross-stitching on the dash and Swan drawing Grey décor, underscored by ambient lighting.

Sportline

Back in black

Designed for those who want to stand out from the crowd. People with a dynamic lifestyle who want a sporty-looking car. That's the new Kodiaq Sportline. Sporty style for the whole family.

Dynamic style

A fast look for every day. The Kodiaq Sportline is easily recognisable thanks to its gloss black accessories. Black items, such as the front grille, D-pillars, side mirrors, and roof rails, plus all the lettering, create a more streamlined and sporty look.

The Sportline is also fitted with aerodynamic front bumper, body-coloured side sills, and black rear diffuser with Unique Dark Chrome trim piece. The whole look is finished off with 19" alloy wheels.

Your place to shine

It looks cool, but it's not just about the looks. The Sportline interior was designed around the driver, made to enable you to do your best behind the wheel. The three-spoke, perforated leather multifunctional steering wheel with Sportline plaque, black fabric and black leatherette and perforated Suedia sports seats that hold you even round the sharpest turns, and aluminium sports pedals are all here for you to enjoy the drive. The all-black interior with black headliner enhances your style. The long list of standard equipment makes the Kodiaq Sportline the sporty family car for every need.

Sportline interior

Suedia pad, armrests and door inserts
 Peter Chrome décor
 Black leatherette and perforated Suedia upholstery

Design Selection Sportline

The dynamic character of the Sportline interior is centred around the black leatherette and perforated Suedia seats made from recycled material. The unmistakable style is further enhanced by the Suedia pad and Peter Chrome décor.
