Small SUV
Best for practicality
Skoda Kamiq

Kamiq

Ready when you are

The challenge was set. To design Škoda's first crossover car and deliver a driving experience worthy of the arrowhead badge. To be a success it would need to feature advanced drive assistance and a new generation of infotainment. It would need to be bolder, sharper and smarter, without ever compromising on fun. In other words, a car that would feel reassuringly familiar, yet distinctively different. Challenge accepted.

Introducing the Kamiq.

Models shown are not UK specification. Some of the equipment shown is optional.

True original

The Kamiq sets a new design standard for Škoda. It combines the higher chassis and rugged appearance of a SUV, with the practicality and comfort of a compact city warrior. In other words, this is a Škoda like no other.

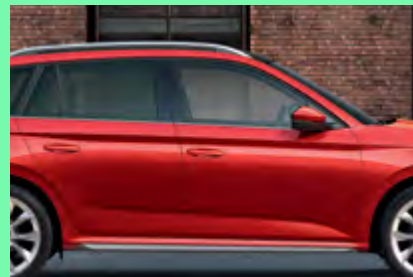

Dynamic front design

With its sharp lines, bold grille and split headlamps, the Kamiq immediately commands attention. While the addition of the front bumper in platin grey or black further showcases the car's unique character.

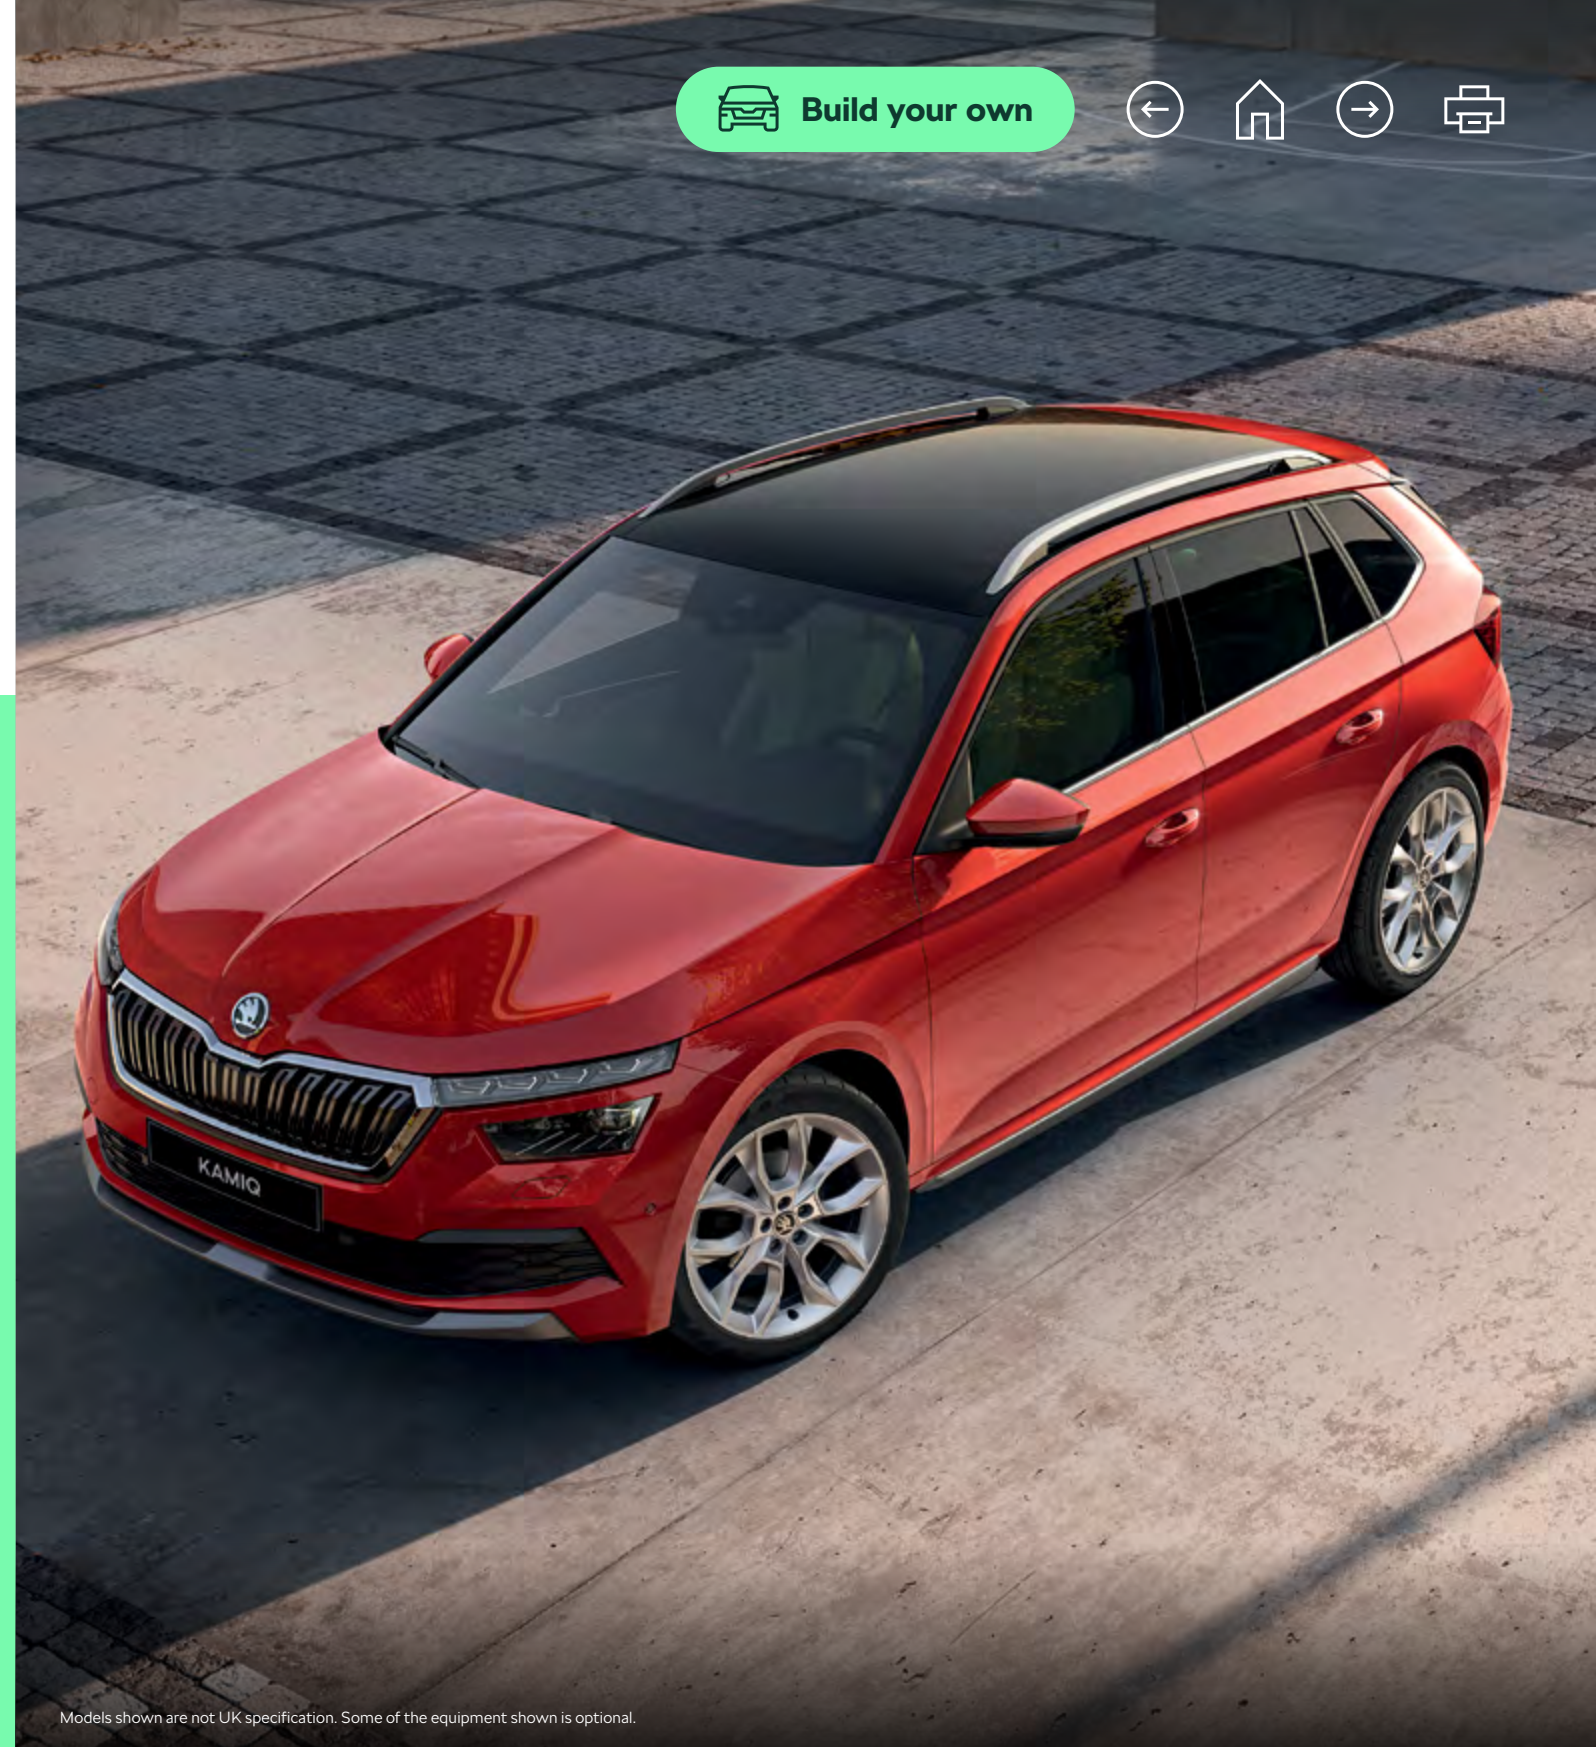

Side view

Designed to protect passengers in the back from glare, the rear-tinted windows also beautifully draw attention to the Kamiq's signature Škoda design lines and precise edges.

Rear view

Robust, yet elegant. The Kamiq's rear perfectly showcases the car's crossover appeal. The addition of the integrated diffuser in platin grey or black on the rear bumper further highlights the car's generous clearance.

 Build your own

Models shown are not UK specification. Some of the equipment shown is optional.

Models shown are not UK specification. Some of the equipment shown is optional.

 **Build your own**

Leading by example

The new Kamiq powerfully combines robust design with signature Škoda styling. This is design without compromise. Beauty without limits. A crossover that leads, but never follows.

Full LED headlights

The Kamiq's LED technology continues to drive design innovation and includes adaptive front light system, cornering function and fog lights.

Panoramic roof

Enhance your travel experience by lighting up the interior and, on sunny days, prevent dazzling passengers with the electric sun blind.

LED rear lights

Impossible to ignore in every sense, the Kamiq features horizontal rear lights with an eye-catching C-shaped illumination.

Finding inner strengths

The moment you take your seat you'll find everything you want, where you want it. Screens are positioned for optimum visibility, buttons placed for maximum ease. Welcome to your new home from home.

Models shown are not UK specification. Some of the equipment shown is optional.

Virtual cockpit
Replacing the traditional instrument dials, the dynamic 10.25" digital display can be customised with five views (Classic, Basic, Extended, Modern and Sports).

LED ambient lighting
Your interior, your way. The LED light strip located below the dashboard's decorative trim enables you to choose from three ambient light colours. So what will it be? Red, white or copper?

Front centre armrest with 2 rear USB-C ports
The adjustable armrest located between the front seats features a storage compartment which is easily accessible by the driver and the front passenger. At the rear there are 2 USB-C slots for the rear passengers.

Electric driver's seat
Discover a whole new level of comfort by electrically adjusting the seat's height, positioning and lumbar support to your preferred position.

Streets ahead in the city

A blast up the motorway or a dash through the city, each engine in the range offers outstanding comfort at every turn. You'll also find they offer impressive reliability, flexibility and cost-efficiency.

Driving Mode Select

Activated with the mode button on the centre console, Driving Mode Select offers Eco, Normal, Sport and Individual modes. If the vehicle is equipped with a lowered chassis that is fine-tuned with the Sport Chassis Control, you can choose between Sport mode and Normal mode via Driving Mode Select.

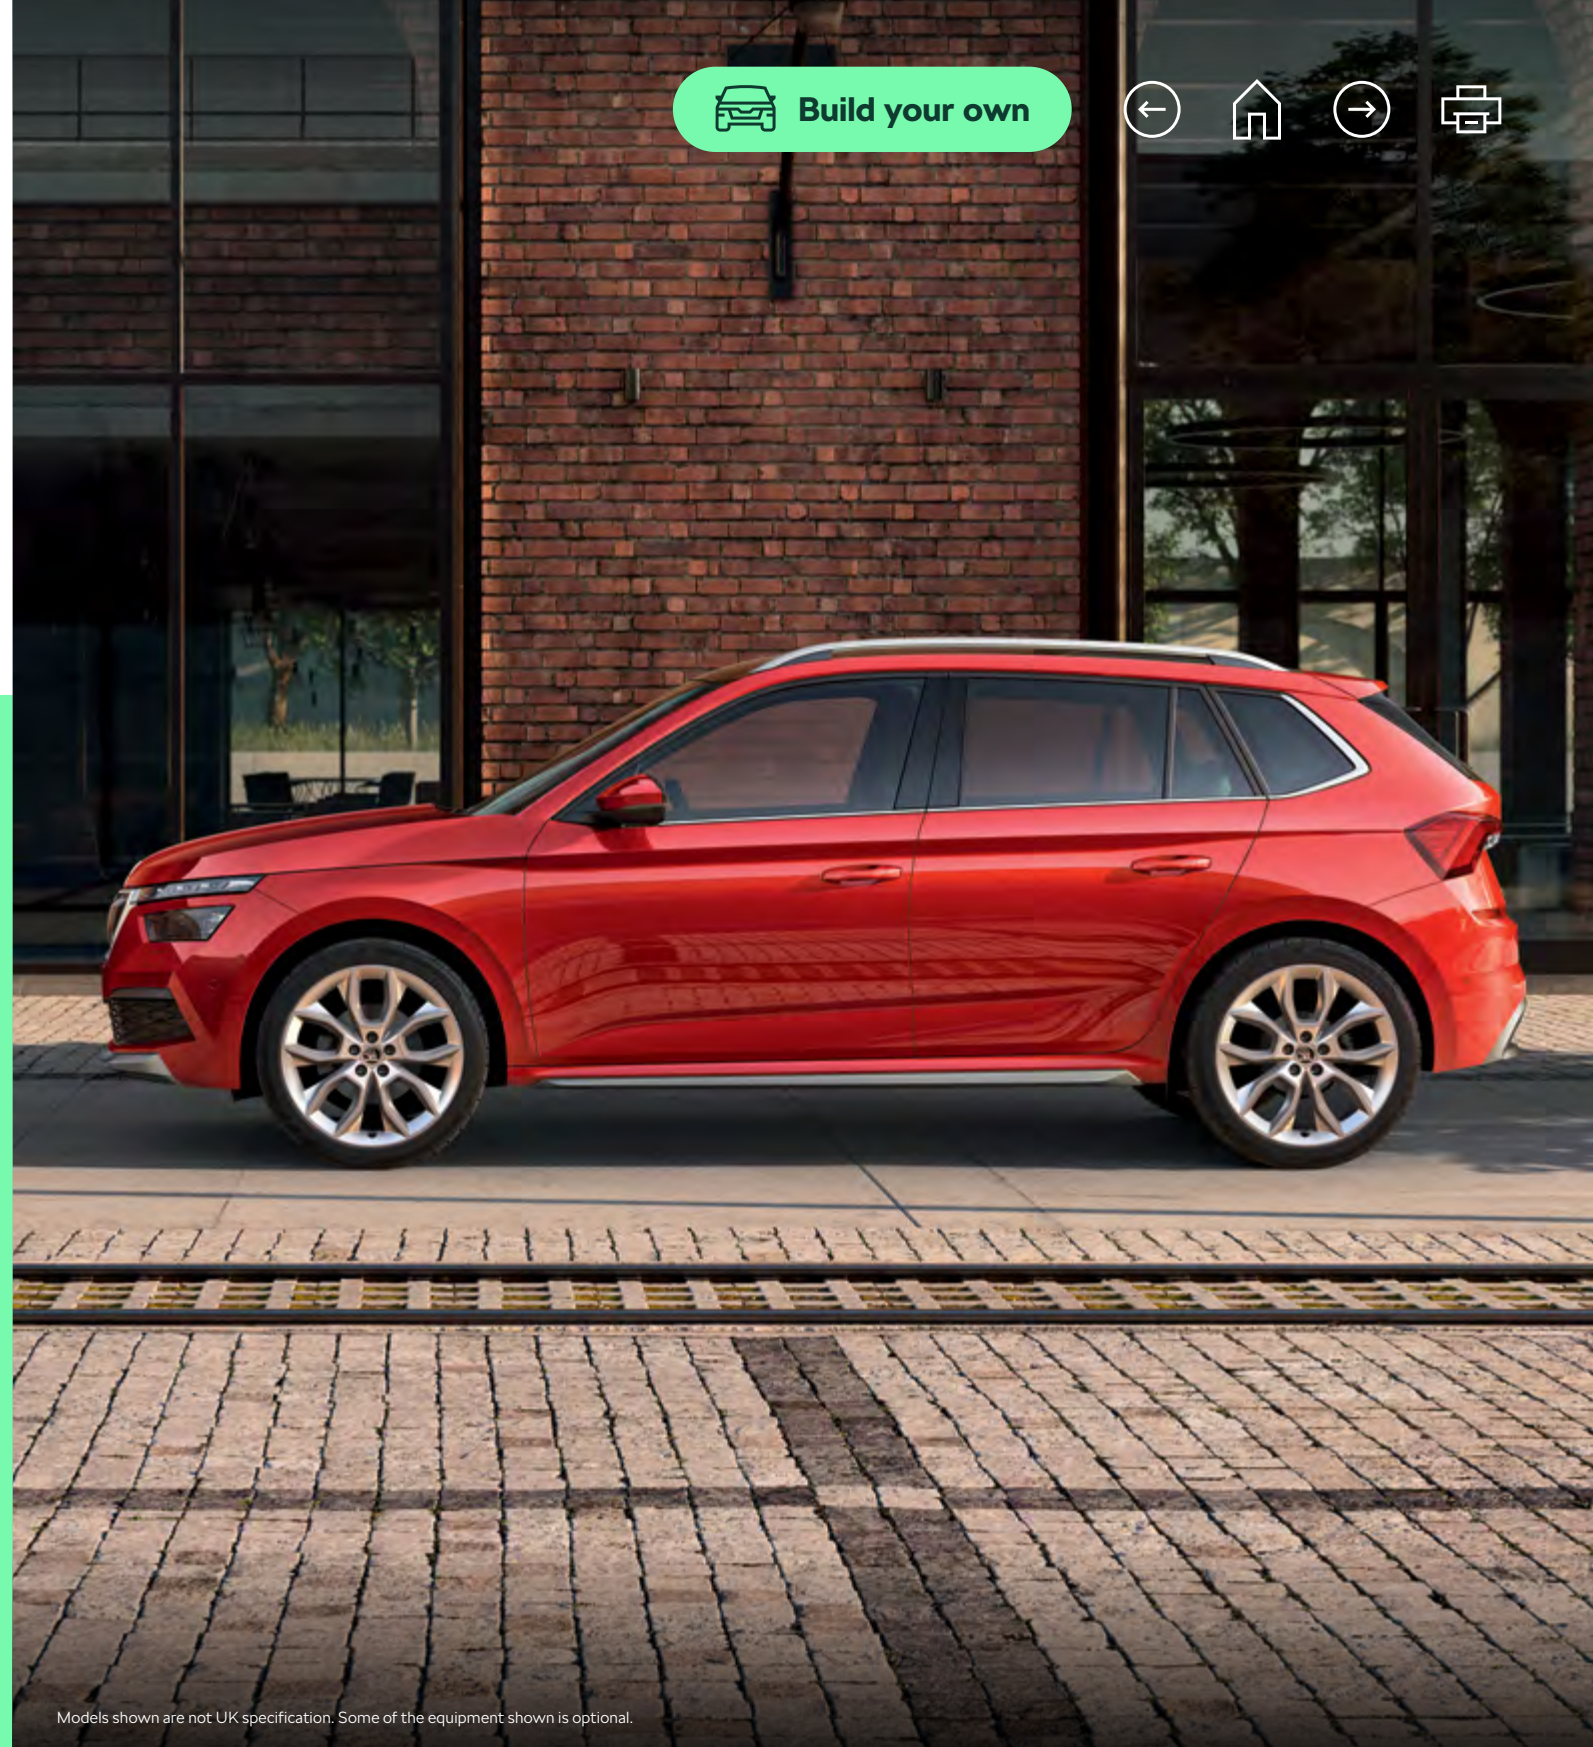

Direct Shift Gearbox (DSG)

The seven-speed DSG automatically adapts to your driving style, whilst taking road conditions into account. It reduces the strain on the engine and stress to the driver, by deciding when to change gear, leaving you free to concentrate on the journey.

Sport Chassis Control

Designed for drivers seeking a sportier, more dynamic drive, this system of adjustable shock absorbers delivers improved handling and traction at all times. Sport Chassis Control always comes with a sport chassis lowered by 10mm and Driving Mode Select, which enables you to switch between Sport and Normal modes.

Models shown are not UK specification. Some of the equipment shown is optional.

Additional information

Innovation at every turn

SmartLink

SmartLink enables you to connect your smartphone through the infotainment system with Apple CarPlay™ and Android Auto™.

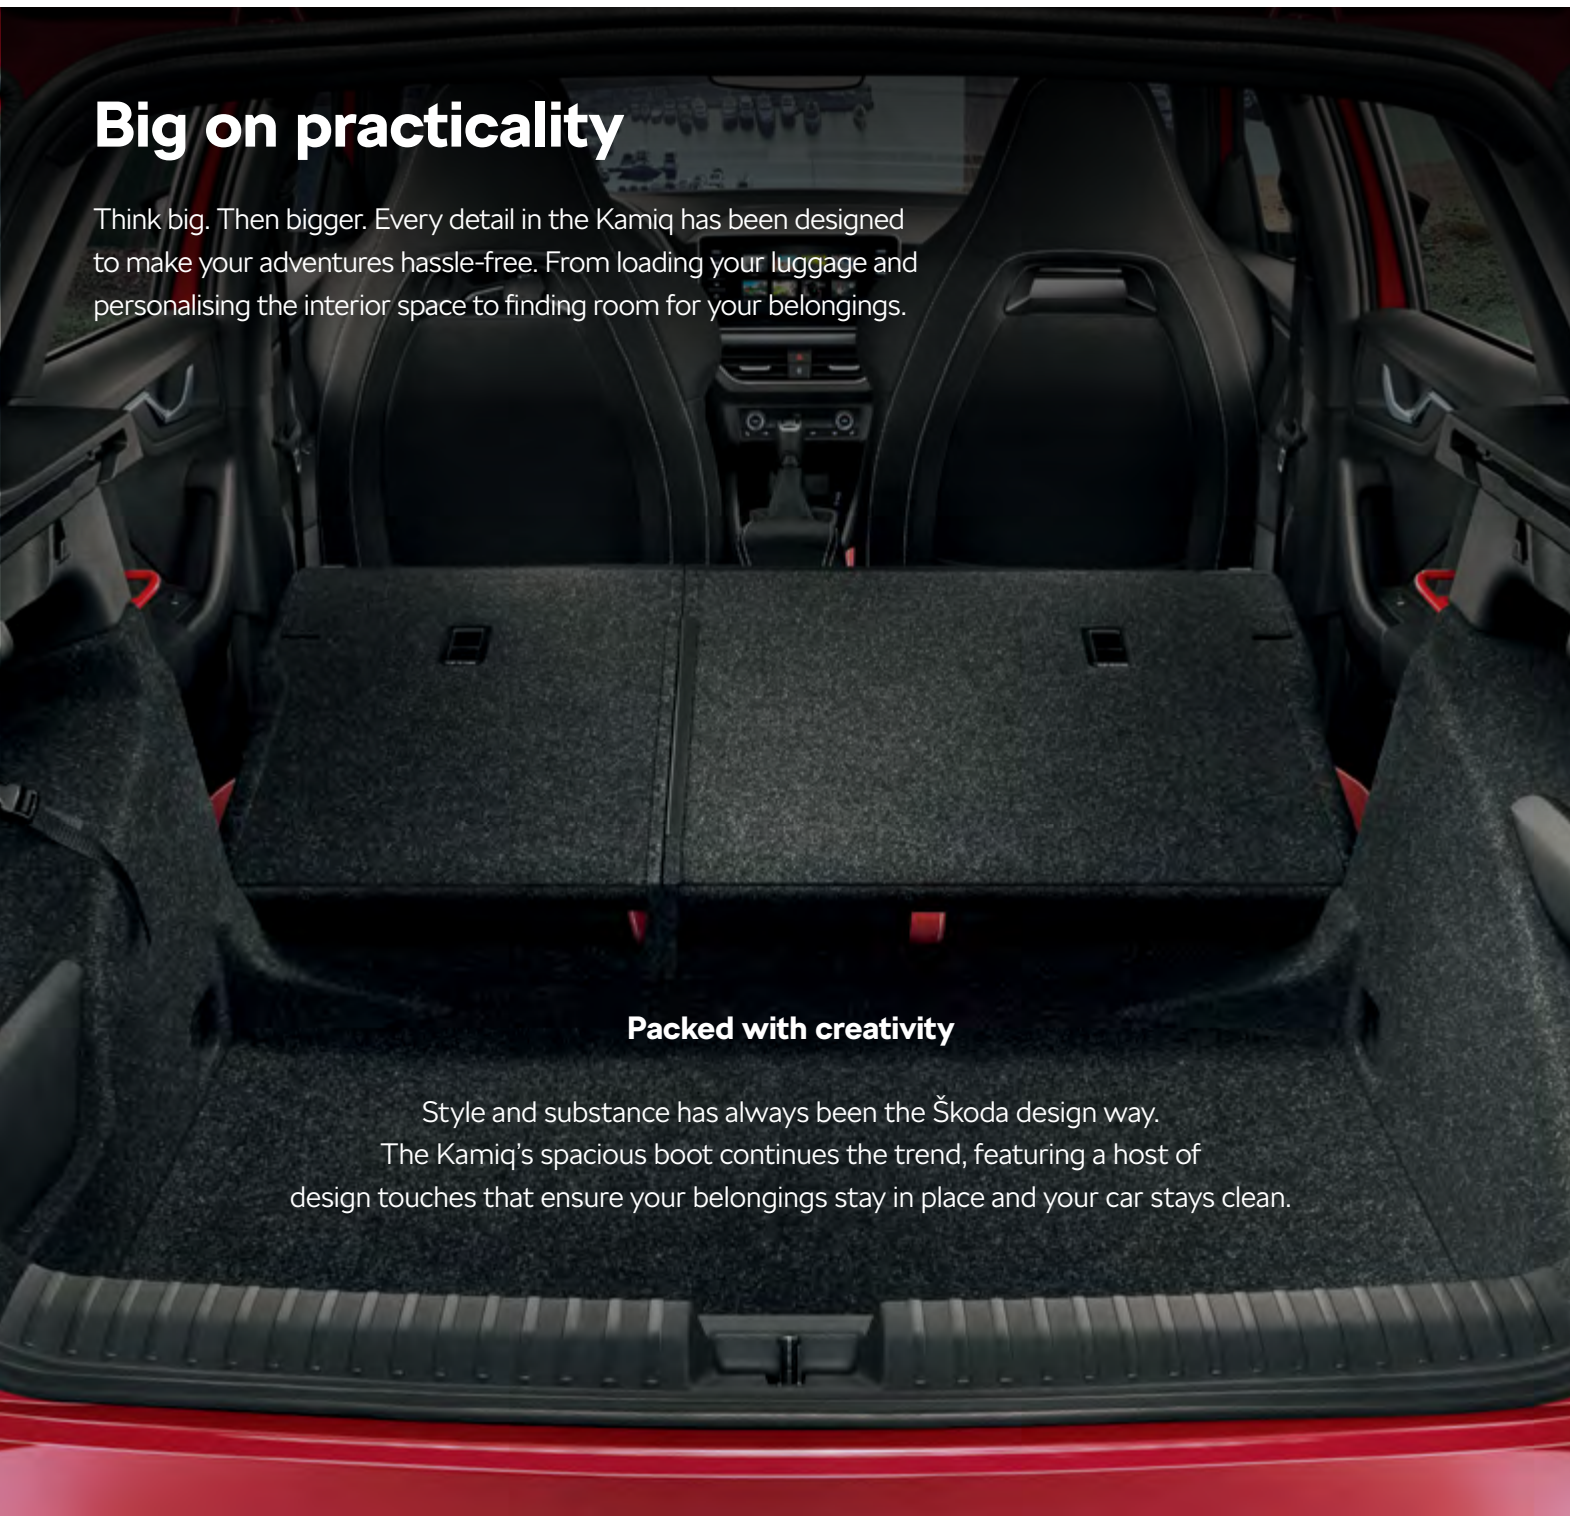

Navigation system

The Amundsen satellite navigation with 9.2" touchscreen display and gesture control will get you effortlessly from A to B. This new generation of infotainment is placed higher up on the dashboard for optimal viewing and includes an ergonomic wrist rest.

Emergency call

In the event of an emergency on the road, the Kamiq will automatically send an SOS signal for help to give you that extra peace of mind. It can also be activated manually by pressing a red button in the roof headlining.

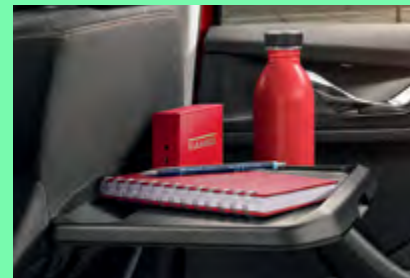

Big on practicality

Think big. Then bigger. Every detail in the Kamiq has been designed to make your adventures hassle-free. From loading your luggage and personalising the interior space to finding room for your belongings.

Packed with creativity

Style and substance has always been the Škoda design way. The Kamiq's spacious boot continues the trend, featuring a host of design touches that ensure your belongings stay in place and your car stays clean.

Folding tables
Practical foldable tables with drink holders can be found integrated in the front seat backrests.

Towing device*
Activated by a switch in the boot, the Kamiq has a handy foldable towing device with electric release.

Door edge protection
Both reassuring to you and considerate to other drivers, hidden plastic strips automatically eject and cover the edges of all side doors as they open, preventing accidental scrapes and chips.

Umbrella storage
The Kamiq comes with an original Škoda umbrella that is ingeniously concealed inside the driver's door. Furthermore, it's been designed to let water drain away from the car, keeping the interior dry.

* Please note, if a tow bar or tow bar preparation is not fitted on the car, the VIN plate may not show any towing weights and the car will never be eligible for towing. As such it may not be possible to retrospectively fit a tow bar if the car is not fitted with tow bar preparation at Factory. Please speak to your Retailer to confirm the exact towing eligibility. Models shown are not UK specification. Some of the equipment shown is optional.

Inner confidence

The Kamiq comes loaded with thoughtful features and intelligent assistant systems that enable you drive the right way, right away. Whatever comfort means to you, you'll find it inside the Kamiq.

Adaptive cruise control

Using a radar on the front grille, this feature keeps you a safe distance from the vehicle in front and enables you to maintain a constant speed without using the pedals.

Folding door mirrors

Side-view mirrors automatically fold in when the car is locked, protecting them from any unwanted damage and scrapes from passing cars and pedestrians.

Heated front and rear seats

When it's cold out, your friends and family will appreciate the warmth inside from the heated front and rear seats, which are regulated by a separate control on the rear side of the front armrest.

Kessy – keyless entry and start/stop system

Allows the car to be locked, unlocked and started with a simply touch of a button as long as sensors detect the key is with the driver. Simpler still, the Keyless Start/Stop system enables the car to be started with a button on the steering column.

 Build your own

Electrically operated boot

Gain instant entry into the boot by simply pressing the button on the remote control, central panel or directly on the boot. You can also adjust the upper door position to suit your needs.

Models shown are not UK specification. Some of the equipment shown is optional.

We've got you covered

When it comes to providing driving assistance, we've got your back. That's because the Kamiq comes with a range of assistant systems to help you with everything from parking and preventing collisions to driving at night.

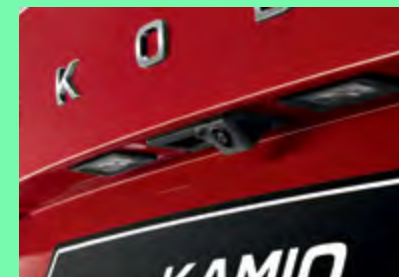

High beam control

Kinder to others, safer for you. This assistance system will switch to high beam and back automatically, increasing comfort and safety in traffic.

Lane assist

This feature monitors road markings and helps the driver to keep the car in lane by nudging the steering wheel in a direction away from the lane marking.

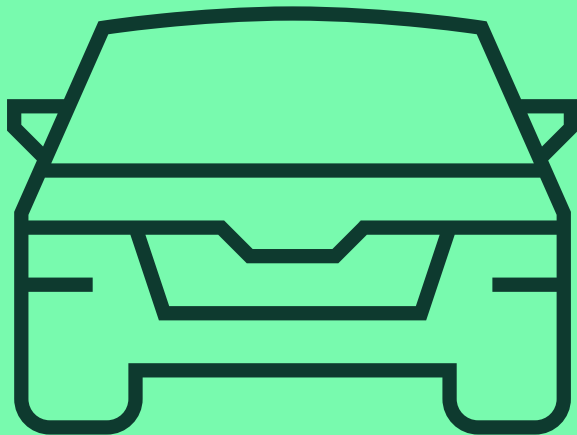

Rear view camera

The rear view camera makes reversing and parking significantly easier. It shows the image of the situation behind the car on the infotainment system screen and displays guide lines to help you navigate through a difficult parking situation.

Front assist

Using a radar in the front grille, this smart feature monitors the distance from the vehicle ahead and automatically brakes to avoid any collisions. The system also includes predictive pedestrian protection, which warns the driver via an audio/visual signal, as well as a gentle jolt of the brakes.
